# Sixteenth Primary School for Girls Report on World Space Week under the slogan (Space and Climate Change)

Activity Leader: Mona Al-Khammash

School Principal: Hanan Al-Khammash

World Space  
Week OCTOBER 4-10

## World Space Week

World Space Week was established by the United Nations General Assembly in 1999 to celebrate the contributions of space science and technology to the betterment of human life, and is the world's largest annual space-related event

The event aims to inspire students, foster support for space programmers, educate the public about space activities, and promote international cooperation in space-related awareness and education

It is an annual event celebrated from October 4 to 10 in more than 90 countries around the world. World Space Week is officially defined as "an international celebration of science and technology, and their contribution to the betterment of the human condition"

World Space  
Week OCTOBER 4-10

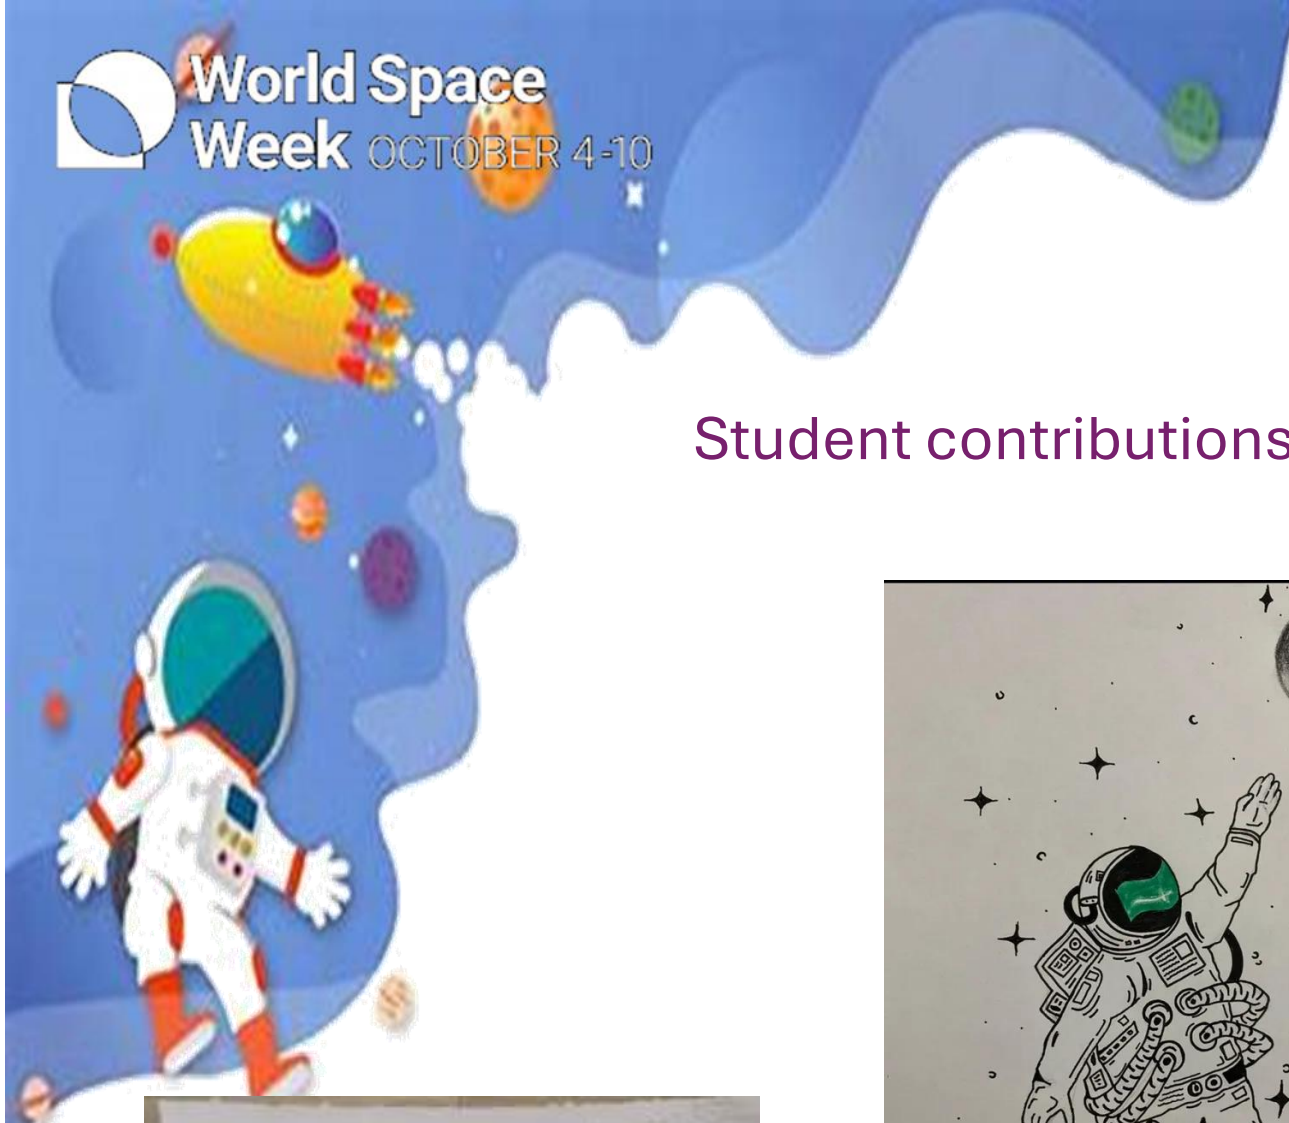

The theme for Space Week is selected annually by the World Space Week Board of Directors in coordination with the United Nations Office for Outer Space Affairs, and reflects important global issues. The 2024 theme focuses on “Space and Climate Change”, highlighting the importance of space technology in understanding and managing climate change

Week OCTOBER 4-10

## Student contributions

 **World Space Week** OCTOBER 4-10

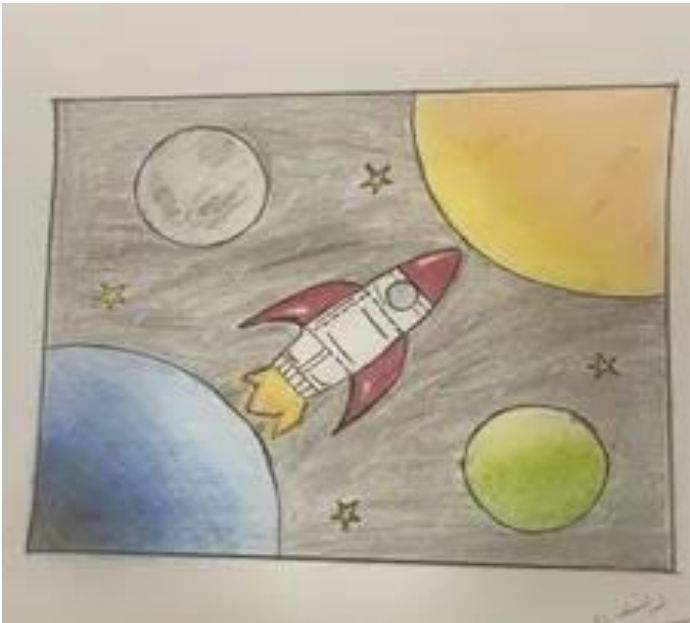

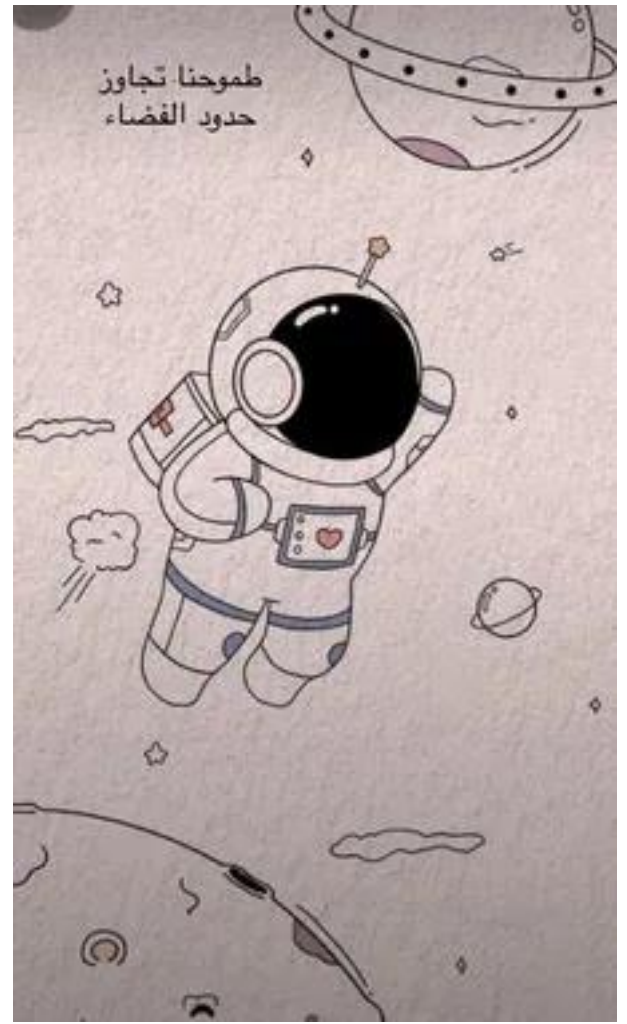

# الفضاء

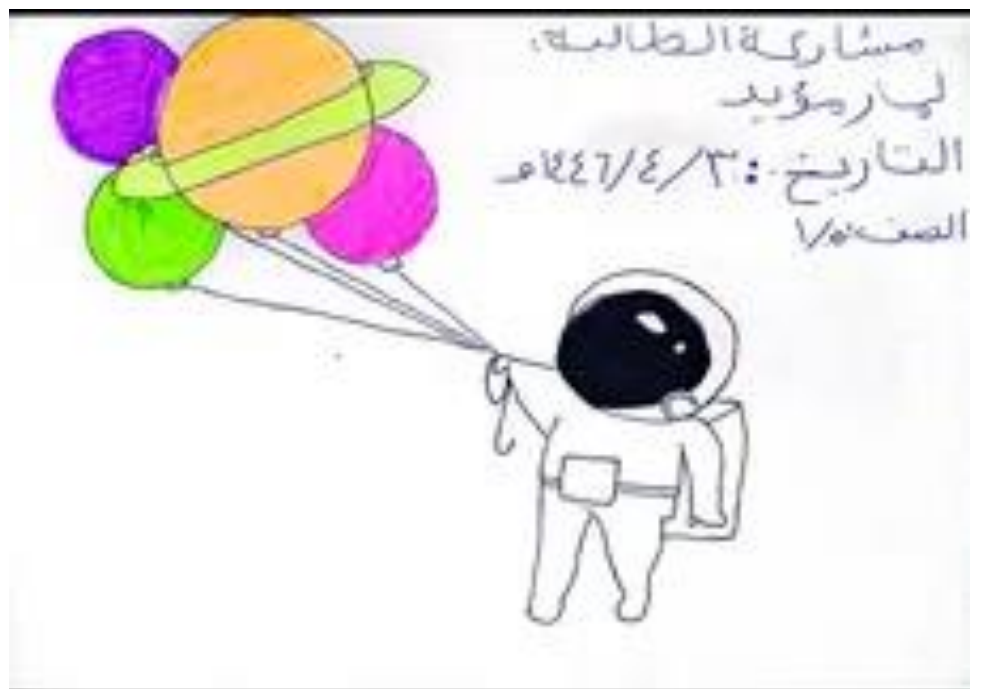

لقد خلق الله سبحانه وتعالى المكان الواسع  
الذي نسميه الفضاء و يتكون من مجرات  
وكواكب ونجوم وهذه المجرة التي نعيش فيها  
تسما درب التبانة وتتكون من ثمانية كواكب  
وهي كالتالي: عطارد الكوكب الأقرب للشمس  
ثم كوكب الزهرة و كوكب الأرض وبعده كوكب  
المريخ ثم كوكب المشتري وبعده الكوكب الأكبر  
في المجموعة الشمسية ثم كوكب زحل الذي  
يحاط غلاف جوي ضخم يتكون في الغالب من  
الهيدروجين والهيليوم وغازات أخرى وبعده  
كوكب زحل ثم كوكب اورانوس ثم كوكب  
نبتون كوكب نبتون هو الكوكب الأكثر برودة

مشاركة الطالبة: ميان مصطفى
