Bulletin

**Saudi Arabia and the space age**

**Saudi Arabia and the space age**  
The dream turns into reality  
Chairman of the Space Authority Prince Sultan bin Salman the first Arab to travel into space in 1985.

The establishment of the Saudi Space Authority has been the culmination of Saudi efforts in the field of space since the establishment of King Abdulaziz City for Science and Technology. A Saudi keenness to engage in the satellite industry, where it has succeeded in designing and manufacturing thirteen satellites over the past decade.

Saudi Arabia established a center of (tamayez) in lunar and near-Earth celestial bodies researches with NASA.

Enhancing the level of higher education in aerospace and aerospace sciences and training programs in the Kingdom.

Influential contributions to Saudi women in the space industry, with 35 employees currently working at the National Center in several areas.
