A vibrant, watercolor-style illustration of space. At the top, a white rocket with red accents and three red exhaust trails is flying towards the right. To its left is a grey, cratered planet. To its right is a light blue planet. The background is white with scattered yellow stars and orange streaks representing shooting stars. In the bottom right corner, an astronaut in a white suit with red gloves and boots is floating. The astronaut's helmet is black with a clear visor. In the bottom left corner, there is a large orange planet with red spots. A small satellite or probe is visible near the astronaut's feet.

Space

has been my dream since I was a child
and I want to go to space. I want to see
the stars and the planets. I want to see
the world from space. I want to see
the world from space. I want to see
the world from space.
